

DataMite version 1.22 has been released.

kornalius, Monday 26 March 2007 - 17:47:29

Datamite version 1.22 has just been released.

Here is the change log:

- New enhanced menus. Works better with Windows XP.
- Fixed "Grab Sample Text" button to save sample text in project.
- Fixed working datatable to remove CR and LF characters.
- Fixed Trap Line to be saved with project.
- Added support for #ASCII codes in project, import and export delimiters.
- Fixes to the importer.
- New fields will now be Left/Right trimmed by default.
